INSTRUCTIONS

1. Start out by painting the bottom section of the candle holders with 3 coats of Blue Lagoon.
2. Next, use your liner brush to paint the lines between the "arms" with 3 coats of Deep Sea.
3. To paint the base, you are going to apply 3 coats of Blue Lagoon in the center part of the base. Leave the edges unpainted and white.
4. Use your waterbased marker to plan out your words on the "arms"
5. Finally, use your detail brush to paint in 1 coat of Blue Lagoon on the words.

TIPS

- The water based marker will disappear when it's put in the oven, so don't worry about it when you're planning your writing.
- Make sure to off load the excess paint on the paper towel before sponging the piece to keep blobs from happening.
